Saad Rana

saadlatif38@gmail.com | +923200427656 | LinkedIn | Portfolio

Versatile Product Designer with a strong foundation in Software Engineering (BS in Computer Science) and proven expertise leading end-to-end UI/UX across web, mobile, and complex SaaS platforms. Skilled in creating high-fidelity interactive prototypes, building comprehensive design systems in Figma, and conducting rigorous user research and accessibility compliance (WCAG/W3C ARIA). Adept at bridging the gap between design and engineering, utilizing data-driven insights and cross-functional leadership to boost task efficiency, improve CSAT, and drive product roadmap success.

PROFESSIONAL EXPERIENCE

Arbisoft | *Applications Building Services* **Plano, United States**

Product Designer **Sept '25 – Present**

- **Cross-Platform Product Design:** Led end-to-end UI/UX design across web, mobile, and hybrid platforms for core projects including ***BenchPrep***, ***JoulesAI***, ***DevLake***, and ***LibreChat***.
- **Design Systems & Architecture:** Built and structured BenchPrep's complete design system and reusable component libraries in Figma, streamlining developer handoffs and enabling faster interactive prototyping.
- **Prototyping & Motion:** Developed complex, high-fidelity interactive prototypes with conditional logic and motion design; created an experimental motion prototype featured on Arbisoft's official LinkedIn page.
- **User Research & Accessibility:** Conducted qualitative user interviews, usability testing, and heuristic audits to optimize product workflows. Authored comprehensive *Modal Design Standards* and web accessibility guidelines compliant with W3C ARIA standards.
- **Analytics Strategy (SignalDesk):** Created *SignalDesk* (PostHog Analytics integration) to simplify product tracking implementations for PMs and engineering teams across multiple client initiatives (*Schoolgram*, *Grady*, *JoinedBio*).
- **Client & Team Leadership:** Facilitated design check-ins and live feedback sessions, led daily standups across multiple projects during PM absences, and represented product strategy in high-stakes client demos.
- **Community Leadership & Mentorship:** Hosted internal Knowledge Sharing Sessions (KSS) on Figma variables and advanced prototyping. Featured panel speaker at *Friends of Figma Lahore* on the intersection of AI and design strategy.

The Chakor | *Applications Building Services* **Ann Arbor, Michigan**

UX/UI Designer **April '25 – Aug '25**

- **Product Strategy & UX at Chakor:** Collaborated with cross-functional teams to define product roadmaps for key projects including ***PMP Simulator***, ***ExcelForce***, ***PlotMeIn***, and ***Chakor's*** own website.
- **Conducted usability testing** (20+ responses) to align features with user needs and improve satisfaction.
- **Led** in-depth competitor and SWOT analysis to identify gaps and strengthen product positioning. Enhanced collaboration between design, development, and marketing using Agile practices through Chakor's own portal.
- **Mapped user journeys** and crafted personas based on real-world scenarios to drive UX improvements across all platforms.

Quantus health, Inc | *HealthCare Software Platform* **Texas, United States**

Product Designer **Feb '23 – March '25**

- **Quantus Mobile App:** Co-designed a clean, efficient UI that boosted task completion by 10% and CSAT by 5%.
- **Led A/B testing** and UX improvements, increasing search success 10x and reducing task time by 25%.
- **Collaborated with product designers** to define roadmap objectives, prioritize features, align on timelines, and ensure accessibility by adhering to WCAG guidelines.
- **Conducted usability testing** on an EHR application (20-response survey) and implemented UX improvements in navigation, data entry, and workflow efficiency.
- **Conducted competitor analysis** using user data and SWOT to uncover pain points and gain an edge.
- **Collaborated** closely with clients to spot gaps early and seize new opportunities.

Freelancing **Lahore, Pakistan**

Product Design **Jan '22 - Jan '23**

- **Sema4 – Task Management App:** Designed a streamlined UI with filters, reminders, and daily logs to improve task navigation and user experience.
- **Money Solution Bank:** Collaborated with Sales and Proposal teams to align CRM enhancements with ERP and business goals.
- **Leave Management App:** Created a user-friendly interface to simplify the leave request and approval workflow.

I2C, Inc | *Global Payment Processing Platform* **Redwood City, CA**

Software Engineer **Aug '22 – Jan '23**

- **Java/Informix**: Optimized a 24/7 notification scheduler and implemented two-factor authentication, cutting unauthorized access by 50%.
- **Client Branding:** Accelerated onboarding for 17 clients and improved engagement through push notifications.

EDUCATION

National University of Computer and Emerging Sciences (FAST-NU) **Lahore, Pakistan**

Bachelor of Science (Computer Science) | *Washingto*n Accord Accredited **Aug '18 – Jun '22**

- **Final-year project:** Built an immersive VR game with interactive storytelling.

SKILLS

- **Design:** Figma, Bootstrap, Competitor analysis, Wireframing, Personas, UX/UI design certifications, Product Roadmap strategy, Usability testing, User research, Information architecture, Prototyping, UX writing, User journey, Interaction design principles, Web design, Mobile design, Design systems.
- **Soft Skills:** Communication, Leadership, Efficient Scheduling, Team work, Agility, Creativity, Empathy.
